*My Dearest Christine,*

*They tell me that now you are in a better place. All I can think is that I would be to if I could just see your face. But I guess just remembering your B-E-A-U-T-I-F-U-L face is all I can do. I think that will keep you as close to me as you will ever be. Closer to my heart. As you are my heart. My Babydoll. This is no obituary. This is my final love letter. For all to know and to see, so they can find you right here with me. Where you have somehow always been. Will always be. My one and only. Christine.*

*Love, Mark*
